ROYALCHAR
ENERGY LIMITED

COMPANY OVERVIEW

ROYALCHAR ENERGY LIMITED is a Zambian private company established to develop and operate petroleum retail businesses through strategic partnerships with established petroleum companies and Oil Marketing Companies (OMCs).

The company's primary business activity is the retail sale of automotive fuel in specialised stores (ISIC 4730). Our strategy is to establish professionally managed branded service stations through franchise, dealership and petroleum-supply arrangements.

BUSINESS STRATEGY

ROYALCHAR intends to identify commercially attractive locations and partner with established OMCs to develop branded petroleum service stations.

The partnership model allows ROYALCHAR to contribute investment capital, site development and local management while benefiting from an established petroleum partner's brand, fuel-supply network, technical standards, training and operational systems.

PRODUCTS & SERVICES

The company's core business will be petrol and diesel retailing. Depending on the selected franchise partner and station configuration, complementary activities may include lubricants, automotive products, convenience retail, mobile-money services and other approved forecourt services.
